

Asanté's 5, 8, 16, and 24 port 10/100 Desktop Hubs Deliver Fast, Affordable, "Plug-and-play" Networking to the Desktop

FriendlyNET FH2000P Hubs

- Asanté's FriendlyNET™ 10/100 desktop hubs deliver big performance in a small footprint for easy installation in home offices, small offices or enterprise workgroups.
- Upgrade existing networks or build new networks with complete freedom to mix and match 10Mbps and 100Mbps connections.

Flexible Features

Performance and Flexibility

- Asanté's FriendlyNET FH2000P series dual-speed hubs provide 10Mbps or high-performance 100Mbps operation, for connecting network devices such as PCs, Macintosh computers, workstations, and network printers to a Fast Ethernet network.
- Includes an internal bridge module allowing simultaneous transmission between 10Mbps or 100Mbps connections on all ports.
- With NWay auto-negotiation, installation and configuration of your network devices is simple. This dynamic feature detects and configures 10Mbps or 100Mbps operation automatically for each port.

Plug-and-play Design

Ease of Installation and Use

- The plug-and-play design of Asanté's FriendlyNET hubs makes set-up and connection to your PCs, Macintoshes, workstations, (including UNIX) and servers easy—simply plug it in and you're up and running in no time.
- Asanté's FriendlyNET hubs support all popular network operating systems including AppleShare, AppleTalk, Novell NetWare, TCP/IP, and other NDIS and ODI-compliant operating systems.
- Easy to read LEDs provide at-a-glance management displaying power, collision, link status and 10Mbps and 100Mbps operation.
- FriendlyNET's small footprint fits easily into desktop or wall mount installations.
- Uplink switch for easy connections to other hubs or switches without special crossover cables.
- FH208P model includes dip switches for setting speeds manually for legacy network devices with fixed speed interfaces.
